ALL ABOUT

MR MCKENNA

I have lived in the beautiful city of York for a large part of my life now but I grew up in Manchester. I have four siblings – one sister and three brothers.

In my spare time, I love cycling and enjoy holidays with friends where we can get on a bike and cycle through some beautiful scenery. I have been lucky to have travelled to some exciting places over the years.

One of my favourite holidays was when we stayed in the ancient city of Bagan in Myanmar. The sun setting on the temples was such an amazing sight!

When I am at home I love being in the garden. It's a great way to unwind after a busy day and I love seeing things grow that I've started from a seed.

Finally, I love teaching children and especially enjoy working at our small school. What's great about Stockton is that we're a small community where everyone knows each other. For me it's great seeing children start here and watching them develop into amazing young people in their time at our school.
